MADJAX

MadJax Camo Alpha Body Kits

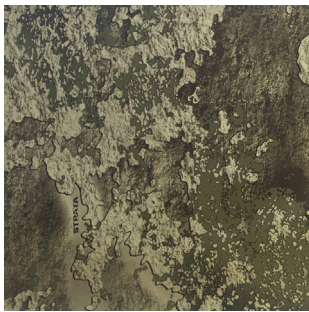

Relaunching our line of Camo Alpha Body kits featuring the Alpha Off-Road Grille (#05-083) and full standard light kit. Available in three popular camo patterns to run covertly in multiple regions and terrains.

FEATURES:

- Multiple premium camo patterns
- Perfect for low visibility in hunting environments
- Low-sheen satin finish to eliminate excess reflection

FITMENT:

- Make & Model: Club Car Precedent/Tempo/Onward

#05-112 *TRUTIMBER STRATA*

\$1,976.95 MSRP

Strata incorporates both macro and micro camo schematics. The macro design breaks up the human outline at all distances while the micro design melts into any terrain at close range. From the open country of the West, to the mixed forests of the south, to the leaf barren late season hardwoods of the East, you simply won't find a more effective all-purpose hunting pattern.

#05-113 *TRUETIMBER KANATI*

Named in honor of a legendary hunter, Kanati utilizes high fidelity digital photography and groundbreaking technology to capture the truest colors and silhouettes to create the most realistic camouflage pattern on the market. You won't just blend in. You'll disappear.

#05-114 *Realtree MAX-5*

Built with waterfowlers in mind, new Realtree MAX-5® camouflage is filled with cattails, reeds, cane and grasses to blend into flooded marshes. Plus corn, wheat, oats and sunflowers to hide you in open fields. It has branches, twigs and leaves that work in flooded timber. And with open areas that mimic mud, water, bark and shadows, MAX-5 literally adds another layer of invisibility to camo – no matter where or how you use it.
